Filters suction systems

Exhaust air bacteria filter for VS 250 S,
V/V/S/VSA 300 S, Variosuc and PTS 120

**Order no. 7120-143-00 (with mounting
bracket and accessories)
7119100010 (single filter)**

Exhaust air bacteria filter for V/V/S 600 - V/V/S 1200 S,
V 2400, PTS 200 and clinic systems V 6000,
V 9000, V 12000, V 15000 und V 18000

**Order no. 0705-991-50 (with accessories)
0705-991-05 (single filter)**

For hygienic reason we recommend installing a bacteria filter in the exhaust air line.

The Università di Camerino has tested the exhaust bacteria filters with the test virus PhiX174 and confirmed a retention of greater than 99.99 %. The test virus PhiX174 has a size of 25–30 nm.

Filter quality HEPA-H13 according
EN 1822-1:2009

Filters compressed air

Sterile filter for contamination reduction
of the compressed air

Order no. 1640-981-00

Bacteria filter for contamination reduction
of the compressed air

Order no. 1650100172*
